

# JATIN KAPOOR

Delhi, India | +91 9996175751 | jatinkapoor768j@gmail.com | <https://www.linkedin.com/in/jatin-kapoor-cyber/>

## PROFESSIONAL SUMMARY

---

BCA graduate (2026) specializing in Cybersecurity, with hands-on internship experience in digital forensics at a government Forensic Science Laboratory. Skilled in mobile evidence extraction (Cellebrite UFED), network analysis (Wireshark, Nmap), and chain-of-custody procedures. Built three independent technical projects spanning fraud detection, financial systems, and application development. Seeking an entry-level role in cybersecurity or digital forensics to apply analytical and technical skills toward organizational security.

## SKILLS

---

**Digital Forensics:** Cellebrite UFED, Cellebrite Inseyets, Magnet AXIOM, AccessData FTK, Data Acquisition & Preservation, Chain of Custody Management, Forensic Documentation

**Network & Security:** Wireshark, Nmap, Network Security, Information Security Fundamentals

**Domain Knowledge:** Digital Payment Systems, KYC Verification, Mobile Application Troubleshooting

**Tools & Platforms:** Windows OS, MS Office, Java, C++, Python, PyQt5

**Soft Skills:** Analytical Thinking, Attention to Detail, Problem Solving, Communication, Team Collaboration, Adaptability, Leadership

## CERTIFICATIONS AND EVENT

---

**Cyber Defence Hack Summit 2026** — Participated in a cybersecurity-focused summit covering cyber defense, ethical hacking, emerging threats, and security practices.

**Cybersecurity Workshops & Technical Events** — Participated in technical sessions and events focused on cybersecurity, networking, and emerging technologies.

**Mastermind Challenge — Participant** — Participated in a competitive challenge demonstrating problem-solving, analytical thinking, and teamwork skills.

## EXPERIENCE

---

### Cyber Forensics Intern

Apr 7 – Jun 8, 2026

*Forensic Science Laboratory, Rohini, Delhi*

- Assisted senior examiners in digital forensic investigations, supporting evidence analysis across approximately 20 active cybercrime cases.
- Performed mobile device data acquisition using Cellebrite UFED, Cellebrite Inseyets, Magnet AXIOM, and FTK while maintaining strict chain-of-custody protocols for court-admissible evidence.
- Contributed to forensic case documentation and reporting, ensuring accuracy and compliance with lab standards and legal procedures.

### Field Sales Executive

Mar 2025 – May 2025

*Paytm, Dehradun, Uttarakhand*

- Onboarded and verified 16 merchant accounts in compliance with KYC and digital payment regulations.

## PROJECTS

---

### Fraud Detection System (Java)

- Designed rule-based logic to flag suspicious banking transactions and unusual spending patterns, improving early detection of potential fraud.

### Debt Management System (C++)

- Built an application to manage borrower records and track loan repayments, enabling efficient monitoring of outstanding balances.

### Lightweight Web Browser (Python, PyQt5)

- Developed a functional desktop browser with integrated Google Search and core navigation features using PyQt5.
